Subject : [BULK] testimonial

Serge,

I would like to tell you that I'm very happy with the increased fuel economy on my '93 Honda Civic.

The fuel economy went from 32 to 41 on my initial tests strictly on highway.

The fuel economy went from 30 to 38 on both highway and street driving.

In both cases I see an improvement of approximately 28%.

Thanks so much for this product.

Regards,

Michael Lucero
